Dr. Draion M. Burch, DO, aka "Dr. Draai" is among the country's most well-known and respected OBGYN physicians and surgeons. He travels throughout the U.S. lecturing on insights and strategies for improving women's health to his patients and peers. Dr. Draai is also a respected expert, visionary, and leading thinker in the area of transgender health. He has been published in respected medical journals and is frequently called upon by local and national media to give a fresh perspective and new information on women's health trends.

Dr. Draai is the practicing physician and founder of Amare Concierge- the new standard of healthcare for women. He is seen as the leading visionary concierge physician of modern medicine. Dr. Draai is the chief medical advisor of DrDrai.com, where he discusses actionable ideas and real-world strategies to help women take control of their health.

A few words come to mind when describing Dr. Draai – Best- Selling Author, Award-Winning Blogger, Fortune 500 Brand Ambassador, Medical Executive Coach, National Speaker, and the go-to Media Expert on women's health and transgender health issues. But those who've have seen him ON CAMERA can usually describe him in one word – DYNAMIC. Dr. Draai combines practical, responsible academic knowledge, with his charisma – making him a highly sought after media personality.

Dr. Draai earned his Doctorate of Osteopathic Medicine degree from The Ohio University and completed his internship and residency at Michigan State University.
